## Rust & Water Stain Remover

Effortlessly lifts mineral scale, stains, and rust

V1.0 January 19, 2020

REEF & OCEAN FRIENDLY

BlueWave's Rust & Water Stain Remover is one of the most powerful and eco-friendly acid-based hull cleaners on the market. Powered by Enviro-Syn® HCR-7000™, an eco-friendly Modified Acid™ alternative, it effectively removes stains and residue on boat hulls from salt, mineral scale, exhaust and rust.

The enhanced formulation of BlueWave's Rust & Water Stain Remover improves contact time to efficiently break down scale and grime, including on vertical surfaces, to ensure optimal results quickly and safely. This product prevents redeposition by coating the hull surface so your boat stays cleaner longer and improves future cleaning cycles.

### Value Add/Benefits

- Easy application and quick results
- Effective on vertical surfaces
- Removes salt and mineral scale
- Removes exhaust and rust stains
- Removes surface yellowing
- Deters future soiling and build-up

### Physical Properties

Appearance: Clear liquid  
Specific Gravity: 1.1  
Boiling Point: >212°F (100°C)  
pH: <1

### Application

Effectively cleans and protects all marine surfaces including metals, vinyl, plastic, wood, rubber and fiberglass.

### How To Use

Spray product directly onto a dry, stained surface or apply with a sponge. Allow to soak for 10 minutes before rinsing.

Repeat if necessary for heavy staining.

Test product in an inconspicuous area on surface prior to application to ensure compatibility.

### Safety & Handling

Review SDS for any safety precautions prior to handling product.
